(1) What should "actual situation" constitute?

The actual situation should constitute the following:-

1. The civil acceptance level of pervious methods for selecting the CE.
2. Civil democracy request recently.

(2) How "gradual and orderly progress" should be understood?

No more than 10 years after 1997(effective date of Basic Law)

(1) Meet "the interests of the different sectors of society"?

(2) "Facilitate the development of the capitalist economy"?

Both:-

1. Election of CE and LegCo by universal suffrage.
2. Maintain Protecting Private Property Rights

Based on Mr Ji's explanation in 1990, how could the development of Hong Kong's political structure

**Amendments to Annexes I and II and local legislation**

Do we need to follow the procedures set out in Article 159 of the Basic Law, if we amend the methods for selecting the CE or forming the LegCo as specified in Annexes I and II of the Basic Law?

Sure not!!

How should any amendment relating to the methods for selecting the CE and for forming the LegCo be initiated?

**Should start from the Government of HKSAR.**

Whether the method for formation of the third term LegCo could be used for the fourth term LegCo, if no consensus were reached on whether to amend the method for forming the LegCo after 2007?

This question have a no good assumption ( no consensus were reached) , the HKSAR government should try its best to discuss with civil.

Whether the phrase "subsequent to the year 2007" should be understood to include 2007?

It should include 2007, otherwise it should use the "later than 2007" wording.

My Opinion:-

The current political problem in Hong Kong is mainly caused by the bad management performance of Mr Tong

Chee Hua. Then it lead us (civil) to rose up the request of universal suffrage election of CE - A person who worth to represent and work with us and communicate to China central government.
