 Subject: Interactive Forum

    Move To:

Dear Sir/Madam,

I am disappointed with the lack of an Interactive Forum on this sensitive issue.

It looks like the Hong Kong Government has not learned the power of the many-to-many communication.

The use of email and fax is still using the outdated many-to-one technique. The average citizen would not be able to build on the views of other citizens.

It may not be too late to add such an interactive forum. An example of such a forum is already available at a Government website (Forum hk2030). An improvement is to have a central forum moderated by both Hong Kong and Chinese Government members and multiple discussion forums moderated by the various interested groups. The central forum will select the best ideas from the various discussion forums for publication and additional comments. This will allow citizens to see, comment and build on the views of each other. It will also ease the summary work later on. This will also guide the discussions in a very positive way.

It will also learn to Wisdom Society.

Regards,

Lawrence Tseung
