Subject: A1(1) Hong Kong is an inalienable part of China

    Move To: 

To ensure HK as an inalienable part of China, HKSAR must be run by patriots to uphold the "One Country" principle.

Subject: A1(2) HKSAR comes directly under the CPG

    Move To: 

HKSAR enjoys a high degree of autonomy, but whilst providing her own capitalistic system in HK, her political structure should develop in such a way as to allow co-existence of the other system currently enjoyed in CPG. There shall be no act nor propaganda to threaten such co-existence.

Subject: A1(3) The Chief Executive (CE) is appointed by the CPG. He is accountable to both the CPG and the HKSAR

    Move To: 

The CE should be a carefully selected person who is capable of promoting harmonious working relationship with the CPG.

Subject: A2(1) What should 'actual situation' constitute

    Move To:

"Actual situation" should refer to the degree of maturity in a consensus of public opinions towards achieving a specific goal. In the selection of the CE and the forming of LegCo., there is a specific goal which constitutes a demand on them that they should:

- 1/ Lead the local government efficiently in implementing the political structure of "One Country, Two System". The "One Country" is a prime objective. The "Two System" opens to HK a flexible choice of another system which may, but not necessarily, differ from that of the Central Peoples' Government.
- 2/ Implement directives issued by CPG
- 3/ Conduct affairs as authorized by CA

Subject: A2(2) How 'gradual and orderly progress' should be understood

Move To:

"Gradual and orderly progress" should be understood as a process conducted to achieve the above mentioned specific goal. Because "actual situation" is influenced by many factors including those uncontrollable such as bad elements which may undermine the "One Country" principle, there should not be any time tag on the process. To pave a way for gradual and orderly progress, it simply means a need of eliminating all the bad elements to maintain a proper constitutional development in the HKSAR.

Subject: A3(1) Meet 'the interests of the different sectors of society'

    Move To: 

To meet "the interest of the different sectors of society", one should canvas as wide a spectrum of business, cultural, professional, research institutional and patriotic communities as possible to gain their support to participate in the current political environment. Those with non-patriotic ideas and those with intent to instigate instability in the local society for self advantage should be eliminated. Only proven patriots should be allowed to sit in LegCo.

Subject: A3(2) 'Facilitate the development of the capitalist economy'

Move To: (Choose Folder)

To facilitate the development of the capitalistic economy, stability in the society is the prime concern. Currently, China is a major trading market in the world and is therefore the live line of HK. If we allow unscrupulous people to split HK from her motherland, we shall never be successful in our capitalistic ideal. We should bar such people from sitting in the LegCo.
