Re: Oppose on D/P's Proposal on Universal Suffrage for HK in 2007/2008

After viewing the chaos and turmoil happened in Taiwan during the past few days after their Presidential Election, I feel extremely unease to the idea of our so-called Democratic Party's proposal to press ahead with the "Universal Suffrage" to select our Chief Executive between 2007/2008., as I reckon the price of immature/abrupt democratisation could be too luxurious and expensive for us. Our society needs stability and order more than a direct election.

I fully support our Government's stance that democracy should be introduced gradual by gradual, rather than at a stroke.

Many Thanks!
