Subject: NPC group to interpret Basic Law annexes

    Move To: 

Dear Sir/Madam,

As a citizen, I am deeply disappointed with "NPC group to interpret basic law". Although i do understand they have the right to do so but I still consider it is a total demolishing of the "one country, 2 systems" principle. In addition, it also impose unnecessary restriction on what the CAB-review process.

Lastly, please express our disappointment about this when you meet up with NPC next week.

Regards,

Danny Cheng
