Dear Sir,

I refer to the captioned matter and write to suggest a election method for the legislative council election.

I would prefer picking my own choice of six candidates (Hong Kong Island District) instead of picking 1 whole list as some members of the my picked list are not successful under current election method.

In addition, the polling ticket is too large and polling box is too small... the school is too small and too many people queuing up. The waiting time is too long because there isn't enough helpers as there should be (let's say) 10 lines to serve us. People should only line up as 1 line and "first come first serve" method should be use.

Therefore, please consider my suggestion seriously and thank you for your kind attention to the above matter.

Regards,
