Dear Sir

Request for the grant of an interview

We are the Minority Communities Association established to help build up healthy and wholesome Hong Kong society.

It is a matter of great concern that minority community members were not included into the Basic Law Drafting Committee. Interest of the minority communities has thus been undermined in Hong Kong by both the Hong Kong Government and the Hong Kong public. This has resulted in the following:

1. That the minority communities have not been represented in all the political structures such as Huen Yee kuk, District Councils, Legislative Council and Executive Council. It is natural in the situation of Hong Kong where 98% of the population is that of Chinese minority members can never compete in the election whether it be of Heun Yee Kuk, District Councils, Legislative Council.
2. No representation and therefore no participation in the process of decision making. Any government policies that come to us to comply with we feel of it an IMPOSITION.

Hong Kong Government since its beginning has been professing that Hong Kong is a multicultural society where unity in diversities exist. If that is the case we have to make it one.

We like to discuss and seek agreeable solution to it. An early meeting is duly requested.

Thank you

Yours sincerely

(Signed)
